RAUVISIO ferro technical information

Celebrating the elemental power of forged metal, RAUVISIO ferro metallic PET surface is highly touchable and elegant. Comprising inseparable layers of metallic color, secured between transparent layers, finished with a lacquered metallic print, this surface offers rich color and depth perspective for an enduring like-new appearance. More resilient than metal foil laminates, which can easily pierce or dent, the solid PET composition is suitable for high-moisture environments and exceptionally resistant to fingerprints, scratches, stains and mold. Offered as boards and edgeband or fabricated panels and cabinet doors, RAUVISIO ferro is laminated to an MDF core that is CARB2, TSCA Title VI certified, then finished with perfectly matched REHAU LaserEdge™ for a luxurious, monolithic effect. From cool to warm, endless design possibilities await when you accent with RAUVISIO ferro.

Profile specifications	
Appearance	Metal
Door style	Slab
Design style	Modern, contemporary
Construction	PUR laminated PET face and back, REHAU LaserEdge
Face material	UV-cured PET, multiple colors
Back material	UV-cured PET, multiple colors
Edgeband	REHAU LaserEdge, matching color
Core	Super-refined MDF
Board thickness	23/32 in (18.6 mm)
Size parameters	
Minimum	3 x 5 in (76.2 x 127 mm)
Maximum	47 x 109 in (1193.8 x 2768.6 mm)
Edgebanding profile	
Top edge	1.0 mm radius
Bottom edge	1.0 mm radius
Edgeband Finish	Magic 3-D LaserEdge, color matched
Accessory products	
Integrated handle	1 17/64 and 5/64 in (32 and 2 mm)

Board specifications

RAUVISIO ferro is laminated to a high quality, super-refined, engineered MDF core that is CARB2, TSCA Title VI certified which provides a stable, consistent substrate and virtually eliminates -warping.

Edgeband specifications

All components are edgebanded with REHAU LaserEdge, which provides an extremely heat and moisture resistant seamless joint rivaling solid surfaces.

Cleaning and care

Clean with a damp microfiber cloth and mild soap if needed. While the surface is scratch resistant, it should never be dry-wiped. Avoid abrasive cleaners, solvent-based cleaners and harsh chemicals. Do not use paper towels, brushes or scouring pads. REHAU is not responsible for any damage done by abrasive cleaning products or procedures.

Protective coat

A protective peel coat is applied to the top of the PET surface. Do not expose peel coat to direct sunlight before removal. Remove promptly after installing cabinet but prior to mounting decorative hardware. To remove peel coat, use rubber fingertips or our peel coat removal tool.
